FORGE CUBES

**PRODUCT SAFETY AND
HANDLING GUIDE**

Issued by: Relic Displays

Region: North America

Document Version: 1.1

Effective Date: November 2025

1. Product Description

Forge Cubes by Relic Displays are modular display cases designed for showcasing collectible items such as statues, trophies, premium footwear, porcelain figures, and model replicas. Each unit is constructed from durable plastic panels and magnetic connectors to provide a clean, modular, and easy-to-assemble display system. Forge Cubes are designed for indoor, stationary use only and should be placed on flat, stable, and level surfaces.

2. Intended Use

- Designed to hold or distribute items weighing no more than 25 lbs (11.3 kg) per unit.
- Intended for use in residential or commercial display settings.
- Not intended for use as a chair, stool, storage container, or climbing surface.
- Product is not a toy and should be kept out of reach of children.

3. General Safety Precautions

3.1 Weight and Balance

- Do not exceed 25 lbs (11.3 kg) per cube.
- Exceeding this limit may cause warping, bowing, or structural failure.
- Distribute weight evenly; avoid placing heavy items near corners or side panels.
- Impact or leaning pressure may cause panel detachment or product collapse.

3.2 Assembly and Stacking

- Forge Cubes use magnetic connectors and gravity alignment.

When stacking:

- Always ensure all corners and panels are fully aligned and seated.
- Remove top panels before opening or removing lower panels.
- Disassemble from top to bottom when moving or reconfiguring stacked cubes.
- Improper stacking or misalignment may result in product instability or tipping.

3.3 Handling and Moving

- Always disassemble cubes before relocation.
- Never move assembled cubes with objects inside.
- Do not lift or drag cubes by top or side panels; hold by corner frames when handling.
- Use caution to prevent dropping or impact, which can result in cracking or injury.

3.4 Surface and Environment

Place cubes on stable, level surfaces only.

Avoid:

- Uneven flooring or carpeting that may interfere with magnet alignment.
- Exposure to direct sunlight, excessive heat, or high humidity.
- Outdoor use or wet conditions.

3.5 Cleaning and Maintenance

- Handle acrylic panels with clean, dry gloves to avoid fingerprints or smudges.
- Clean only with a soft microfiber cloth and non-abrasive cleaner.
- Do not use ammonia-based cleaners (such as Windex®) as they can damage acrylic.
- Regularly inspect magnets and joints for dust or debris that could affect performance.

4. Warnings and Safety Notices

WARNING:

Failure to follow these instructions may result in **product damage, injury, or property loss.**

Do not climb, sit, or stand on Forge Cubes.

Keep packaging materials away from children to avoid **choking or suffocation hazards.**

This product contains **magnets**. Magnets can interfere with electronic or medical devices such as pacemakers. Maintain a safe distance of at least 6 inches (15 cm).

CAUTION:

Improper handling or overloading may cause parts to separate or fall.

Always verify magnetic connection points before placing valuable or fragile items inside.

5. Limited Warranty

Relic Displays warrants that Forge Cubes are free from material and manufacturing defects for a period of one (1) year from the date of original purchase.

This warranty covers replacement of defective parts only and does not cover:

- Damage caused by misuse, abuse, modification, or accident.
- Cosmetic damage (scratches, scuffs, discoloration).
- Normal wear and tear.
- Damage resulting from exceeding weight limits or improper assembly.

To make a warranty claim:

Proof of purchase and photographic evidence of the defect are required. Please contact Relic Displays Customer Support for claim instructions.

6. Limitation of Liability

To the maximum extent permitted by applicable law:

- Relic Displays shall not be liable for any indirect, incidental, consequential, or special damages, including but not limited to property loss, personal injury, or loss of collectibles, arising out of the use or misuse of Forge Cubes.
- Relic Displays' total liability shall not exceed the original purchase price of the product.

This limitation applies regardless of the theory of liability, including negligence or breach of warranty, and even if Relic Displays has been advised of the possibility of such damages.

7. Compliance Statement

This product complies with applicable North American consumer product safety standards, including:

- U.S. Consumer Product Safety Commission (CPSC) general use product requirements.
- Canada Consumer Product Safety Act (CCPSA).

All materials used are compliant with RoHS and REACH standards and contain no hazardous substances as defined under North American safety directives.

8. Disposal and Recycling

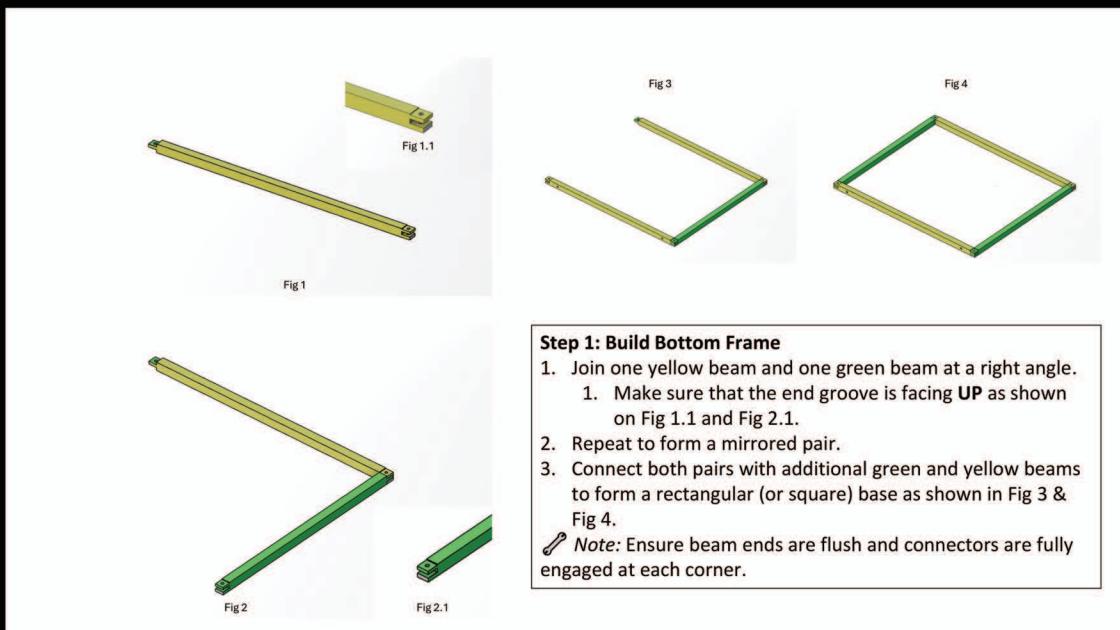

Dispose of packaging materials and damaged parts in accordance with local recycling and waste management regulations.

Do not incinerate magnets or plastic panels.

Assembly Instructions for Forge Cube™ Frame

Watch Our
Assembly Video

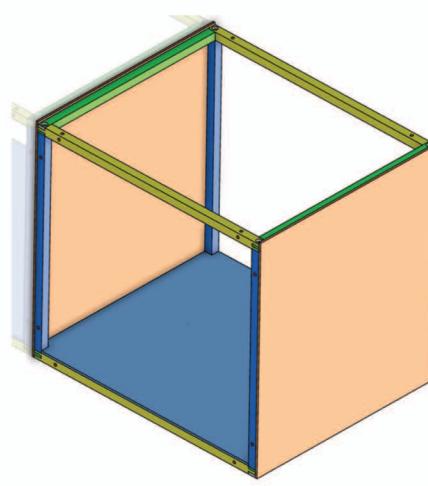

Forge Cube™ Panel Installation Instructions

Step 1: Install the Bottom Panel (Blue)

- Insert the blue panel into the **bottom face** of the cube.
- Secure it flush against the inner edges of the bottom frame.

Step 2: Attach the Side Panels (Orange)

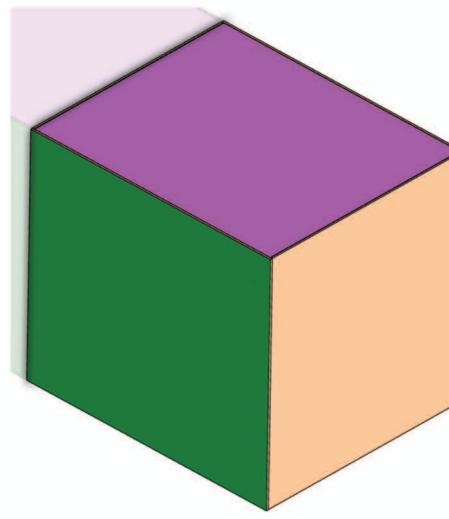

- Attach the orange **short panel** to one **side face** of the cube (left or right).
- Repeat for the **opposite side** with the second orange panel.

Step 3: Attach the Back Panel (Green)

- Position the green **wide panel** onto the **front & rear face** of the cube (the only open side left after installing the two orange panels).

Step 4: Install the Top Panel (Purple)

- Place the purple **top panel** on top of the cube to **close the structure**.
- Align it carefully so it sits evenly across all top edges.

Final Check

- Verify all panels are tightly secured and flush with the frame.
- Ensure the cube is fully enclosed on five sides (open front for access, unless more panels are added later).

About Relic Displays LLC

Crafted by engineers. Perfected by collectors.

Born from a collaboration between seasoned experts in production and engineering and the visionary team at CollectorZown, Relic Displays emerges with a singular mission: to elevate the art of collecting.

Our story begins with The Forge Cubes. A new generation of display systems designed to honor every masterpiece, from 1/64 to 1/6 scale collectibles and smaller 1/4 statues, to Lego creations, Warhammer armies, cinematic dioramas, and even sneakers.

Each Forge Cube is a testament to precision and imagination: modular, stackable, and fully customizable. With five magnetic door panels, seamless assembly, and both vertical and horizontal configurations. They adapt to your vision, transforming your collection into a living gallery.

Because at Relic Displays, we believe every collector deserves a stage worthy of their passion.
